Fritz Kreisler's four solos

prove him a master of the violin

At the age of ten Kreisler won first prize at the Vienna Conservatory, and in his twelfth year astonished the professors at the Conservatoire in Paris by winning the Prix de Rome, an unprecedented occurrence. As a boy prodigy he toured America, then returned to Germany to serve his time in the army. During those four years he abandoned violin practice entirely, but on his reappearance in 1899 his bow was as true and his technique as flawless as ever. Since then he has made six American tours, his present tour being literally a series of triumple.
